MC600

MC600 is a new curtain wall system capable of providing impressive, practical & economic glazed facades as a solution for both small and large scale multi-storey commercial buildings and ground floor treatment.

- U Value 1.4W/m²K (Depending on design)
- Air 600Pa
- Water 600Pa
- Wind 2400Pa

MC600

MC600 is a new curtain wall system capable of providing impressive, practical & economic glazed facades as a solution for both small and large scale multi-storey commercial buildings and ground floor treatment. The system has been designed with efficient fabrication in mind. MC600 benefits from an inter-changeable transom/mullion profile that allows fabricators to utilise the same section for both purposes, whilst achieving consistent sight lines. Depending on requirements MC600 can either be assembled on-site as a stick built system, or alternatively part assembled in the factory. MC600 can incorporate Smart window and door inserts.

Technical Performance

U Value	1.4W/m²K (depending on design)
Document L Compliant	
Glass	24mm, 28mm or 32mm
Dual Colour	Yes
Air	600Pa
Water	600Pa
Wind	2400Pa
Testing	Successfully tested to the CWCT standard for building envelope systems.
