

FEATURING SMART'S NEW
QUICK GLAZE BEAD

Introducing... **VISOFOLD SERIES**

The Visofold Series of slide-folding doors is suitable for both residential and commercial applications. Each door offers impressive opening apertures that bring together internal and external spaces to create unique living and social areas.

Used in a wide range of projects, from homes, bars and cafés, to car showrooms, offices and restaurants, Visofold doors can create a glazed screen that not only allows in maximum light in any weather, but also easily glides open in warmer weather to completely open up an entire area.

Visofold doors offer a wide choice of opening configurations to suit any application. Sashes can be folded internally or externally, at the side so the sashes all fold one way, at one end, to create a single entrance door for easy access, or in the middle to give the option of a double door.

DESIGNING PRODUCT SOLUTIONS FOR

- ◆ The UK's Bestselling Aluminium Slide-Folding Doors Range

From 122mm to just 94mm!
- ◆ Suitable for Residential and Commercial Properties
- ◆ PAS 24:2016 Approved
- ◆ Building Regulations Compliant
Designed to comply with the revisions to the Building Regulations Document L

Visofold 1000 SLIM

The latest addition to the UK's best selling slide-fold door

The new Visofold 1000 Slim builds on all the qualities that has made this the UK's most popular aluminium slide-fold door range.

The sightlines have been reduced by 10mm to 122mm, to make the glazed area even larger, an important consideration for projects both large and small. Approved to the PAS24 security standard, the highly versatile, easy-to-operate system is the perfect option for even the largest project, capable of opening up an entire wall, yet presenting a contemporary, elegant, glazed façade when closed.

FEATURES AND SPECIFICATIONS

- ◆ Our Bestselling Slide-Fold Door
Visofold 1000 slide-fold doors are the most popular door currently supplied in the UK
- ◆ Quick-Glaze Bead
UN3160G for faster on site glazing.
The beads are designed to be easy to remove for maintenance or cleaning
- ◆ Slim Line Sashes
DV220G & DV221G with integrated glazing gasket
- ◆ 122mm Sightline
The sightlines of the original Visofold 1000 have been reduced by 10mm to 122mm
- ◆ U Values up to 1.5 W/m²k
- ◆ Successfully tested to PAS24:2026

Now with the option of integrated gaskets on the sash and **QUICK GLAZE BEAD**

VISOFOLD 1000 SLIM FEATURES SMART'S **QUICK GLAZE BEAD**

Availability

Smart **QUICK GLAZE BEAD** is available in Naturals colours White (WP), Black (BL) and Anthracite Grey (KL005).

Slim line sashes now available with optional integrated gasket.

Easy removal

The combined bead/gasket has been designed to be easy to remove should any of the glazing panels need replacing.

Fast, straight forward and cost-effective installation

The tap-in integrated bead and gasket are simply tapped-in (rather than clipped in), making installation and glazing process faster, straight forward and more cost effective.

Why Choose A Smart SLIDE-FOLD DOOR

Renowned for its perfect combination of light weight and high strength, aluminium is the ideal material for slide-fold doors, with each of our doors designed with performance, style and efficiency in mind.

With a lifespan measured in decades rather than years, together with outstanding thermal efficiency and extremely low maintenance requirements, aluminium has become the perfect choice for residential projects.

Aluminium is one of the world's most recyclable materials; so much so, that 40% of the Aluminium used today has been recycled, with recycling taking just 5% of the total energy used in its production. 75% of the Aluminium ever made is still in use today.

Visofold 6000

With the slimmest profiles in the Visofold range at just 94mm and inconspicuous hardware, Visofold 6000 provides a contemporary solution. This elegant door is available in both traditional sliding/folding and 'slide and stack' formats.

The system features a choice of internally or externally folding panels, which when open, sit flush to the frame. Sashes are hung from a floating mullion and slide on a recessed bottom roller and top guide, which allow ultra-slim profiles, smooth operation and robust security.

FEATURES AND SPECIFICATIONS

- ✦ **Maximise Space and Light**
Visofold 6000 offers the slimmest profile of any slide-fold door system in the UK
- ✦ **94mm Sightline**
- ✦ **Matching Doors Available**
Matching residential single and French doors are available
- ✦ **Maximise Light**
Visofold 6000 is available up to 2200mm (h) x 1000mm (w)
- ✦ **PAS24:2016 Certified**
As well as high security glazing, the doors feature a highly robust locking mechanism that includes multi-point locks on the main opening sashes and shoot bolts on the floating panels

Visofold HERITAGE

Designed to match the slim profiles and Art Deco design of traditional steel doors, Visofold Heritage provides a modern, like-for-like replacement for steel doors. Combining a classical design with outstanding performance, the system combines maximum flexibility with minimum space requirement.

Visofold Heritage features a choice of internally or externally folding panels, which sit flush to the frame when open. The sashes slide on a bottom roller and top guide to provide smooth operation and robust security.
